CAT SCAT

Having trouble with feral pests destroying your garden or planters? Order Cat Scat today!

PrideRock has many big cats and their poo just happens to deter other wild animals from coming into your yard. Big cat scat has been proven to ward off foxes, feral pigs, domestic cats, rabbits, deer, badger, goats and many other animal.

PrideRock intern spends a month in Africa

PrideRock Wildlife Refuge intern Taylor Bankston has fond memories of her month-long stay in South Africa, where she traveled for two weeks, and spent two weeks working at the Ann Van Dyke Cheetah Center and the Glen Afric Rehabilitation Center. Taylor traveled to Ponta do Ouro, Mozambique and Swaziland. She also visited a game ranch and went horseback riding. While at the cheetah center, Taylor thatched fences so the cheetahs could stay cool and other animals could not see them. She also painted and cleaned. While visiting the rehab center, Taylor received up-close interaction with giraffes, zebra, elephants, wildebeest and more. Taylor traveled with several college students from around the United States including five from Kent State, two from Texas, and one from New England and one from Montana.

Packaged to order. Available in a variety of sizes. Always fresh. A one gallon bucket should cover about 100 square feet. Go to the gift shop at www.priderock.org.

"Seeing the culture and being with the cheetahs was the highlight of my trip," Taylor said. Taylor plans on returning to Africa in the future.

Review PrideRock Wildlife Refuge

Have you had a great experience with PrideRock Wildlife Refuge? Now is your chance to write us a great review on www.greatnonprofits.org. We love hearing how much you love the animals, what we do and how PrideRock impacts your life.
