

# Statement of Facts

Dear PrideRock Wildlife Refuge,

Please let this letter confirm the circumstances surrounding my visit(s) to PrideRock. I fully understand that PrideRock is not open to the public and does not Exhibit its animals to the general public. Additionally, I affirm that I did not receive any form of unsolicited information about PrideRock made available to the general public inducing me to visit. I chose to visit PrideRock as the result of a direct invitation from a friend who supports PrideRock, and therefore, would not consider myself a member of the general public for regulatory purposes. Additionally, I have never been asked to offer any form of compensation to PrideRock for allowing me to visit, nor have I provided PrideRock with any form of compensation, or anything else of value for allowing me to do so. Any past or future donations, or volunteer work that I may choose to contribute to PrideRock, should not be construed to be consideration for my being allowed to visit PrideRock, but solely because I have decided that I want to make a charitable donation to help support the efforts of PrideRock in caring for and maintaining its animals. In other words, there never has been and will never be any form of commercial transaction between us.

If any minors accompanied me on my visit(s), it is my intent that they are also to be considered covered under this Visitors Statement of Fact.

This letter is a statement of the facts as I know them to be true.
