On-Site Infirmary
After losing two big cats in December 2016, PRWR hopes to build an on-site infirmary which will provide a sterile, climate-controlled environment as well as more immediate care.

Bear Feeding Barn
A bear feeding barn will be constructed soon. This will allow our staff and interns to work in a larger area and be closer to the bear enclosures.

Our Mission

The PrideRock Wildlife Refuge mission is to prevent cruelty to animals by keeping a solemn promise to each animal we accept that this will be their permanent and final home for the remainder of their lives. This commitment has long-term economic and personal implications. PrideRock Wildlife Refuge is also dedicated to creating species-specific diets, species-appropriate enclosures, veterinary treatment when needed and daily enrichment and recreational areas.
