Happy New Year! We hope that 2021 is off to a great start for all of you! Already this year, we've rescued two wolf dogs that now call PrideRock home. Hopefully, that is the trend for the rest of the year as we work to save other animals needing a forever home. In this newsletter, you'll learn more about our upcoming fundraisers for this year, meet our new residents, and find out how you can visit and learn more about PrideRock virtually by subscribing to our YouTube channel.

We look forward to everything that 2021 has in store and can't wait to share with you more about our upcoming initiatives at PrideRock Wildlife Refuge.
We’re happy to announce that we’ve added two new wolf dogs to our pack! Meet Loka and Shadow. PrideRock is now home to these sweet girls after their owners relocated to a home that was unable to house them. They’re already fitting in nicely and we’ve loved getting to know these sweet pups!

DID YOU KNOW??
That white tigers are very rare? Their white fur is the result of a lack of pigment called pheomelanin that occurs in natural orange tigers. However, this is extremely rare and happens only once in 10,000 births.
Have you checked out our latest series on YouTube? Our operations manager, Corey Allison, will take you on a virtual tour of PrideRock and share his day-to-day as he answers questions from our fans every month.

So, are you curious about what happens behind the scenes at PrideRock? Want to learn more information about one of our residents? Let us know by emailing Kayla@priderock.org! Who knows, we might be answering your questions in our next video!

This past November, we lost a piece of our heart. Tony was 20 years old and lived a great life here at PrideRock, but unfortunately, with old age, comes complications. Recently, Tony had an abscess drained on his shoulder and we learned that this included a tumor. We tried to remain optimistic, but sadly, it was Tony’s time to cross the rainbow bridge.

Tony came to us in 2012 from West Virginia. He was 12 years old at the time and joined us with Tiggy who passed away in 2017. For anyone who came into contact with Tony, you knew instantly how sweet of a boy he was. As Corey has said, “he didn’t know he was a tiger.” Tony rarely growled and was excited to see people. We’re so devastated by his passing, but know that Tony is living it up in tiger heaven.

RIP TONY

IN MEMORIAM

Enrichment is important at PrideRock, and our animals LOVE to get their paws dirty. When creating their works of art, they all have their own unique style. Some like to get messy and others like to just paint with their whiskers, but the end result is always a masterpiece! All of the proceeds that are raised from our upcoming online auction will go straight to the care and well-being of our residents. Plus, not many can say that they have a piece of art that was paw-painted by a tiger!

To bid on our animal’s artwork, join us for our online auction starting February 15th through February 19th.

Internships are for a period of three months and a non-paid position. We are always looking for enthusiastic individuals who are dedicated to educating themselves about big cats while maintaining very strict safety protocols.

We strive to help interns gain experience and knowledge about big cats in captivity. Job duties will include daily care and diet preparation, cleaning, light maintenance and some behavioral target training.
Due to COVID, masks are now mandated across most states. Show your support and help us raise awareness by purchasing a "PrideRock Face Mask" today!

We also have t-shirts, water bottles, bags and more!
